Lighthouse Counselling and Therapy Services is a prominent establishment located in Sault Ste. Marie, Ontario, offering vital mental health support to individuals and couples. However, experiences from clients can vary significantly, highlighting the importance of selecting the right therapist for your

needs.

Wheelchair-Accessible Car Park

One notable feature of Lighthouse Counselling is its **wheelchair-accessible car park**. This accessibility ensures that clients with mobility challenges can easily access the services they need without barriers. The availability of such amenities is crucial for fostering an inclusive environment for all individuals seeking therapy.

Amenities and Convenience

In addition to the accessible parking, the facility prides itself on various other **amenities**. The presence of a clean and well-maintained **toilet** is essential, providing convenience for clients before or after their sessions. Comfortable waiting areas and private counseling rooms enhance the therapeutic experience, allowing clients to feel safe and secure while discussing sensitive topics.

Accessibility and Client Experience

While Lighthouse Counselling provides essential services and amenities, client feedback highlights some concerns regarding the therapeutic process. One individual mentioned their dissatisfaction with couples counseling, stating, "I would not recommend. My ex and I went to get couples counseling, and this counselor was taking sides, not being neutral." Such feedback raises important questions about the practice of maintaining **accessibility** to unbiased support in therapy. The role of a psychotherapist is to create a safe space for all parties involved, ensuring that ethical guidelines are followed diligently. Clients must feel heard and respected equally, without fear of judgment or favoritism.

Conclusion

In summary, while Lighthouse Counselling and Therapy Services offers commendable facilities and accessibility for clients in Sault Ste. Marie, experiences can differ based on individual therapists' practices. It is crucial for prospective clients to consider these factors and seek a counselor who aligns with their expectations for a neutral and supportive therapeutic environment.
